I've been waiting
Searching, lonely
Take me walking
Underneath the stars

Love is here, no end
They'll hold us here forever
Just you wait and see
The sky is just a diamond reflecting the sea

Darkness edging closer to me
Talk to no one, tell them nothing
Fight the feeling
Don't you bear your soul

Love is here, no end
They'll hold us here forever
Just you wait and see
The sky is just a diamond reflecting the sea

Die, die

Ooh, love is here, no end
They'll hold us here forever
Just you wait and see
The sky is just a diamond, reflecting the sea

They'll hold us here forever
Just you wait and see
The sky is just a diamond, reflecting the sea
