I was coming down from what I don't know
The life inside of me in time will set us free
But will ya wait wait wait for me?
Will ya wait wait wait for me until the night is coming
down?
Will ya wait wait wait for me?

And well I love this mess it makes me feel
Throughout my life you are my guide

Today what a day to go out sit and pray
Well will ya wait wait wait for me?
Will ya wait wait wait for me
Until the night is coming down?
Will ya wait wait wait for me?

And well I love this mess it makes me feel
Throughout my life you are my guide

Love path the way
Love path the way

And well I love this mess it makes me feel
Throughout my life you are my guide

Wait wait wait for me
Will ya wait wait?
