"One Way In, No Way Out"

We all know to ride the world we live in
We all know the situation yeah
We all know the fear will soon be leaving
And we all know it's gonna be okay

One way in and no way out
One way in and no way out, no way out

Sooner or later you're gonna have to face it
'Cause we all know the future is the force
We all see the old will soon be leaving
'Cause we are told it's gonna be okay

One way in and no way out
One way in and no way out, no way out

Like what

Right now I'm not in love
Right now I'm feeling hurt
Right now I'm not in love
Right now I'm hurt

One way in and no way out
One way in and no way out, no way out
