Racist, obedient, self destruct and murder
Traits of the enemy, a civilization failure
Robotic, they'll kill themselves
Incinerate a path to heaven fool
They follow by interpreting the word of God
Well, so can the devil
They're his servants and loyal guards at heart
At contradiction their faith indeed

Cheers, and celebrate the death of the occultist fool
What ignorance creates, stupidity adores
Adoring their suicidal cause
72 suppose to be pure
Osama, there isn't even 1
Forever you'll endure the pain you cause
What god did they think they serve
When they

Walk in, detonate
This great faith a peace in a heap of blood and pieces
They call jihad and ran
Illuminates their cowardice
There's no pray to relieve them of their burden
No martyr's gifted peace and everlasting life

No allah
No peace, no warmth, just the cold touch of death
Alone
No glory, no reward
Not a thing for their sacrifice
They're left alone

Celebrate the death of the occultist fool
What ignorance creates, stupidity adores
Adoring their suicidal cause
72 suppose to be pure
Osama, there isn't even 1
Forever you will suffer away from God
What fallen angel would love what you do
and what you've done

The anti-christ their savior, the 12th and lost imam

Self fulfilling prophesy their renewal apocalypse
Behead, mutilate
Their disappearing humanity
So hunt them, stop them
Leave not one left alive
Smile, smile when they all die
