Sitting in my rocking chair  
Grandchildren everywhere  
I remember Reagan  
I remember Nixon  
I remember Fred Astaire

Windows of the world collide  
Save me from the world inside  
Bending in the winds of time  
Windows of the world  
Open up my eyes  
Clinging to a memory  
Tossed upon the cruelest sea  
All the tea in China  
Or the ocean liner  
Couldn't bring them back to me

Windows of the world divide

Staring at the rising tide  
Where did all the time go by  
Windows of the world  
Teach me how to fly  
Sitting in my rocking chair  
Hand brushing through my hair  
You could be my father  
You could be my brother  
You could be the love affair  
Windows of the world collide  
Save me from the world outside  
Dissolve me in the air tonight  
Windows of the world  
Set my eyes alight
