Graham Brown & Tanya Tucker

Baby, your heart is in serious danger  
Don't go out with her  
She'll lead you on and treat you like a stranger  
Don't go out with her  
You need someone like me  
Who'll love you endlessly

Baby, you're headed for a brand new heartache  
Don't go out with him  
The fire at midnight burns out at daybreak  
Don't go out with him  
Darling, wake up and see  
I'm waiting patiently

My love is everything you'll ever need  
I'll start by holding your heart close to me  
I know just what she'll do  
Her kind is never true  
He can't take care of you like me

Well I know a place where love is for certain  
Don't go out with her  
Bring me your heart, there won't be no hurting  
Don't go out with him  
When it's all said and done  
I'll be your only one

Baby, your heart is in serious danger  
Don't go out with him  
She'll lead you on and treat you like a stranger  
Don't go out with him  
Baby, you're headed for a brand new heartache  
Don't go out with her  
The fire at midnight burns out at daybreak  
Don't go out with her
