I tried to be just what you wanted
Oh, but I was always wishing on the moon
Things were always going wrong and oh, it took so long
And you just left me way too soon

If you could only see me now
Now Iâ€™ve turned my life around completely
If I could bring you back somehow
I know that I could make you proud to love me
Well I think youâ€™d be surprised
Iâ€™d be something in your eyes
If you could only see me now

Some crazy dream was always waiting
Down some road I had to follow to the end
I meant to come back home, but time kept rolling on
Iâ€™d love to have that chance again

If you could only see me now
Now Iâ€™ve turned my life around completely
If I could bring you back somehow
I know that I could make you proud to love me
I think youâ€™d be surprised
Iâ€™d be something in your eyes
If you could only see me now

I think youâ€™d be surprised
Iâ€™d be something in your eyes
If you could only see me now
