I can't remember, the day we died,
My last memory, we were just trying to survive,
Ain't what it used to be, no I've grown cold,
It's like watching the sun go to bed at the end of a
lonely road
I'll walk through life, right by your side, but ya
couldn't touch me
Kept my heart up on the top shelf, just out of your reach

Somewhere between you and nowhere,
Is where I always seemed to be
Somewhere between starlight and darkness
Is where my life has taken me
Under ashes, is where my life's left me

I can't remember, the day I died,
The tangled web I weave, am I the truth or a lie
I tried so hard, but I'm too scarred to give you what
to let you close to me
I'm all smoke and mirrors, sleight of hand, I keep
my heart up my sleeve

Somewhere between you and nowhere,
Is where I always seemed to be
Somewhere between the starlight and darkness
Is where my life's taken me
Under ashes, where my life's left me

I can't help the way I am,
I'm the smoke you just can't grab
I was conditioned I wasn't told
I'm like the light you see, but can never hold

Darling I'm so sorry for me,
Goodbye, I'm so sorry

Somewhere between you and nowhere,
Is where I always seemed to be
Somewhere between the starlight and darkness
Is where my life's taken me
Under ashes, is where my life's left me
Amber ashes is all that's left of me
