

## 4Lyn "Pearls & Beauty"

Visit "[Pearls & Beauty](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Every morning I wake Up  
And I'm laying next to you  
I wanna thank God  
And the Devil, for sending you

Cause your my Girl  
My Wife  
My Sis  
Mother of my son

Your my favorite color  
And the air that I breath all day  
Your like a drug  
When I feel fucked up  
You come to save my day

One in a million  
Like a pearl so hard to find  
I'm so happy I met you  
And so thankful that your mine

What we've got is so special (special)  
A million people could search their whole life long  
No words can express the way that I feel  
That's why I wrote you this song

Because I'm nothing, if you're not by my side  
You give me love when I don't deserve it  
Cause you know that's when I need it the most  
Because I'm nothing, if you're not by my side  
Baby girl, I love you more then I ever thought I could  
And it's alright

Since I've known you  
My world is perfect  
What have I done to deserve you?  
You're like a goddess in my eyes  
You make me cry when I want you  
And smile when I can

If I've got nothing to say

I know you'll understand  
Baby I would kill for you  
Would give up everything I've got  
Just to stay with you for a life time  
Believe it or not

I love everything you do  
And would do anything for you  
And I know you feel the same way too

Because I'm nothing, if you're not by my side  
You give me love when I don't deserve it  
Cause you know that's when I need it the most  
Because I'm nothing, if you're not by my side  
Baby girl, I love you more then I ever thought I could  
And it's alright

Yo this feeling  
There is nothing in this world I wouldn't buy for you  
When I'm separated from my baby girl  
It makes me wanna crash the world  
You wanna know why?

Because I'm nothing, if you're not by my side  
You give me love when I don't deserve it  
Cause you know that's when I need it the most  
Because I'm nothing, if you're not by my side  
Baby girl, I love you more then I ever thought I could  
And it's alright

Because I'm nothing, if you're not by my side  
Baby girl, I love you more then I ever thought I could  
And it's alright
