How can I creep when I'm moving just like them?
How can I creep when I'm moving just like them?
How can I creep when I'm moving just like them?
How can I creep when I'm moving just like them?
You try so hard to be independent
But you're nothing but a copy of what you idolize.
You say you're tolerant
But you feel contempt for everything and everyone that
thinks any other way.
Why don't you try to keep your concentration on what's
important and what can slide?
Chorus
How can I creep when I'm movin' just like them?
How can I sleep when I'm dreamin' just like them?

How can I...
When I just want to be different?
How can I laugh when I'm livin' just like them?
How can I feel when I'm feelin' just like them?
How can I...
When I just want to be different?
It's not the things you wear
It's not the way you walk
It's the muthafukkin' way that you think, baby.
Your ideology is for idiots.
Idiots with no style
Idiots of your kind!
Why don't you try to keep your concentration on what's
important and what can slide?
