I'll never forget your face
Don't wanna let this thing die
I'll never forget your eyes

As the tears fall down my face
And things get worse everyday
I can't leave but I can't stay
can't stay, can' stay

Somebody take me away
Somebody take me away
Somebody take me away
Somebody take me away
Cause I can't take this pain

It feels it feels so wrong
Don't wanna let this thing die
We've been together for so long

As the tears fall down my face
And things get worse everyday
I can't leave but I can't stay
can't stay, can' stay

Somebody take me away
Somebody take me away
Somebody take me away
Somebody take me away
Cause I can't take this pain

If you were in my shoes I know exactly what you'd do
If you were in my shoes I know exactly what you'd say
I I know exactly what you'd say

Somebody take me away
Somebody take me away
Somebody take me away
Somebody take me away
Cause I can't take this pain
