I don't think I can handle this
I've never felt like this
Can you catch my drift, oh
Don't know if I can match that kiss
I've never had such bliss
You make me wanna love out loud, whoa
On top of the mountain, on the highest building
Don't really matter, can you hear me
Oh I'm gonna shout it
Until the world knows who I'm talking about
Lately, you got me crazy, stop hesitating
You're so amazing
Baby, don't keep me waiting
Got my heart racing, just gonna say it
You make me wanna love out loud, whoa
Love out loud, whoa, love out loud, whoa
You make me wanna love out loud, whoa
Love out loud, whoa, love out loud, whoa
Shawty love, Shawty love, Shawty love, Shawty love
