Once upon a time another fucking day
we live at a dragon's mouth gone of our earth
this is not a fairy tale living like a slave
so tell me something tell me the truth tell me why I am

O.K. O.K. destiny is the only way
So O.K. O.K. we can't go away

Passion and love leaving us destiny is cruel

hatered greed and violence all that bad things rule
sorrow rules on this place forever dark and cold
why do we live in this world which is already sold

O.K. O.K. destiny is the only way
So O.K. O.K. we can't go away
