can't forget you, I've got these memories of you
I can't forget you, I'll always be loving you
Once we were so happy, we were so carefree and gay,
Then something happened, and you went away
I can't forget you, please tell me, what must I do?
My memories haunt me because I'll always love you
Where are you, darlin'? Are you with someone new?
I can't forget you, I'll always be loving you
Chorus: I can't forget you, I've got these memories of
you
I can't forget you, I'll always be loving you
I can't forget you, please tell me, what must I do?
My memories haunt me because I'll always love you
Where are you, darlin'? Are you with someone new?
I can't forget you, I'll always be loving you
