Never no more will I be all alone, never no more will I be
a stay-at-home,

'Cause I've got me somebody who makes me happy
when I'm blue

never no more will I cry for him, never no more will I try
for him

'Cause I've got me somebody who makes me happy
when I'm blue

I've been all around, I'm painting the town

Saw all the old places and all the old faces that we
used to know

But all that is past, got someone at last who makes me
so happy that never no more will I ever,

Ever be blue

No, never no more will I ever see him, never no more,
now that I'm free of him

'Cause I've got me somebody who makes me happy
when I'm blue

Never no more will I ever see him, never no more, now
that I'm free of him

'Cause I've got me somebody who makes me happy
when I'm blue
