You think you love Sue, but when I get thru with you,  
you won't ever look at Sue again  
I'm gonna be so good to you, I'm gonna love you my  
whole life through  
Pretty soon you'll feel the same, you won't even know  
her name  
I'll give you kisses that she can't beat, I'll treat you so  
nice and sweet  
When I get thru with you, you'll love me true, not Sue,  
when I get thru with you, you'll love me too  
I'm gonna treat you so sweet and kind, I'll drive her  
right out of your mind  
And you won't know her if you meet, walk right by her  
on the street  
Because I want you, I need you so, poor Susie will have  
to go  
When I get thru with you, you'll love me true, not Sue,  
when I get thru with you, you'll love me too  
I'm gonna be so good to you, I'll love you my whole life  
through  
Pretty soon you'll feel the same, you won't even know  
her name  
I'll give you kisses that she can't beat, I'll treat you so  
nice and sweet  
When I get thru with you, you'll love me true, not Sue  
When I get thru with you, you'll love me true, not Sue  
When I get thru with you, you'll love me true, not Sue
