Hold on, I'll be back for you - it won't be long
But for now there's something else that's calling me
So take me down a lonesome road
Point me east and let me go
That suitcase weighs me down with memories

I just wanna be the one you run to
I just wanna be the one you come to
I just wanna be there for someone when the night
comes
Let's put all our cares behind us and go where they'll
never find us
I just wanna be there beside you when the night comes
When the night comes

Two spirits in the night
We can leave before the morning light when there's
nothing left to lose and...
Nothing left to fear
So meet me on the edge of town
Won't keep you waiting I'll be 'round
Then you and I - we'll just roll right out of here

I just wanna be the one you run to
I just wanna be the one you come to
I just wanna be there for someone when the night
comes
Let's put all our cares behind us and go where they'll
never find us
I just wanna be there beside you when the night comes
When the night comes

I know there'll be a time for you and I
Just take my hand and run away
Pick up all the pieces of the shattered dream
We're gonna make it out some day
We'll be coming back - coming back to stay

When the night comes
I wanna be the one you run to
When the night comes
To be the one you come to

I wanna be the one you run to

I just wanna be the one you run to

Wanna be the one you come to

I just wanna be there for someone when the night
comes

Let's put all our cares behind us and go where they'll
never find us

I just wanna be there beside you when the night comes
When the night comes

When the night comes...
