Hello, how are you?  
(I'm OK, and how are you?)  
I'm good  
I got somethin' to tell you (what?)  
About your fella  
He's back there, makin' out with one of my friends  
I thought it was you

Just like an animal  
Undercover cannibal  
Do you really want it?  
You really really want it bad  
Aw, yeah, that's right  
Look how he shines

Somethin' in him that you believe  
It's a world that's only on TV  
At least you'll find some honesty with me

Heartbreak Girl  
Your boyfriend made the news  
Have you heard the things he did to you?  
Baby, you were on my mind

The things I said were all misunderstood  
If only I could get to you, I would  
Baby, you were on my mind

This is my confessional  
So unprofessional  
I kinda want it, kinda really really want it, well  
Fuck you and all of the things that you do  
You do them for you

I'm sorry, that's not what I mean  
I just wasn't old enough to see  
This was never made for you and me

Heartbreak Girl,  
Your boyfriend made the news  
A Hollywood affair, that's nothing new!

Baby, you were on my mind

The things I said were all misunderstood  
If only I could get to you, I would  
Baby, you were on my mind

Is it makin' you itch that the truth is a bitch?  
Gotcha all mixed up  
All mixed up  
And the wheel keeps spinnin' around and around  
Gotcha all mixed up  
All mixed up  
I'm all mixed up

Heartbreak girl  
Heartbreak girl  
Na na na na oh

The things I said  
They were all misunderstood  
If only I could get to you, I would now  
Baby, you were on my mind  
My mind  
My mind
