There are times when I look in your eyes, I see the luv that we share, I see the joy inside. But I didn't see the feelins u hide, and now u sayin goodbye, cause your love has died.

And all I can think about is u. The way u say u love me too, and everytime I close my eyes I see your face. My love can never be erased and u can never be replaced. Baby..

Baby girl, y dont u come back to me, y dont u love me anymore. Baby girl, u kno I still care for u, u kno I will love u forever more.

There are times when I kiss u good-nite, I feel the love that we share, I feel the joy inside. But I didnt feel what u try to hide, and now u sayin good-bye, cause your feelin is died.

And all I can think about is u. The way u say u love me too, and everytime I close my eyes I see your face. My love can never be erased and u can never be replaced. Baby..

Baby girl, y dont u come back to me, y dont u love me anymore. Baby girl, u kno I still care for u, u kno I will love u forever more.
