What am I here for?

She will love me no more

What have I done wrong?

I must find the answer

Hey baby, how can you come and cry, baby?

After you cheated me a lot, baby?

After you cheated me and lied?

Loving you, no fun

When you're sad and lonely

Life has just begun

Lost my one and only

Hey baby, how can you come and cry, baby?

After you cheated me a lot, baby?

After you cheated me and lied?

A river of salty water flowing from eyes

For no apparent reason

Growing through the season

No one I know well sees me cry

Tears of failure lose their eye

Got to find someone

Who will love me dearly

[Such a two __t__m]

Life's a lover's clearing

Hey baby, how can you come and cry, baby?

After you cheated me a lot, baby?

After you cheated me and lied?

Hey baby, how can you come and cry, baby?

After you cheated me a lot, baby?

After you cheated me and lied?

Hey baby, how do you come and cry, baby?

After you cheated me a lot, baby?

After you cheated me and lied?
