Everybody gather 'round (and on me)

Everybody gather 'round (it's not her)

Everybody gather 'round

Sit down on the ground

And listen to my song...

I believe--someday that you'll be mine

I just can't wait 'til then

I believe--it isn't very far away

It's up to you, you must see when

I believe--in oh, so many, many things

Rabbits foots and good luck charms

I believe--in your sweet, sweet love

When you got me in your arms

I believe in you, girl, believe me

I believe in you, girl, c'mon now

I believe in you, girl, you see me

I believe in you, girl, believe me

[guitar solo]

One fine day--we'll find some time together

I hope that we'll get wed

'Til I see---I'll just keep up my faith in you

You'll know girl, what I've said

I believe in you, girl, believe me

I believe in you, girl, c'mon now

I believe in you, girl, you see me

I believe in you, girl

I believe---yeah

I believe--baby

I believe--girl

I believe in you, girl, believe me

I believe in you.
