When you're gonna dance  
All over my face  
Being like a hurricane  
Dressed in satin and lace  
This passion must be love  
It fits like a glove  
You're the spider I'm the fly  
And I am gonna die, die, die  
Electricity  
Grinding out a brand new world  
Electricity  
Electricity  
The master and the slave  
A temporary grave  
I let you start dance  
All over my face  
The master and the slave  
You're the master I'm the slave  
You're the spider I'm the fly  
And I am go nna die
