It was said that you and me

Could do what we want

It was said that you and me

Got the world with us

There's a lot I wanna tell you

But I don't know where to start

It was said that you love me

And we never fall apart

And now you're gone away

Searching for another game

You can play...

You can always count on me

Now it's over to believe

You can always count on me

But you're on to go away

With my arms wide open

I am waiting here

You can always count on me

For you I'd give my dreams

But now you're gone away

Searching for another game

You can play...

You can play
