The whole world is quiet, the sun is asleep
It's just me and you, this fire and this need
Baby I know you've got something to say
And I've been dreaming about this all day
So let's break the silence right now

Cause when your hands dance on my skin
I feel everything you want me to feel, baby I'm listenin'
When you hold me so close I can hardly breathe
Baby I can hear what you're saying, talk to me

The tip of your tongue, the beat of my heart
Say that again, that was my favorite part
And babe we've got nothing but time

So let your hands dance on my skin
I feel everything you want me to feel, baby I'm listenin'
When you hold me so close I can hardly breathe
Baby I can hear what you're saying, talk to me

There's a sweet conversation, in the way we make love
I can't get enough

Cause when your hands dance on my skin
I feel everything you want me to feel, baby I'm listenin'
When you hold me so close I can hardly breathe
Baby I can hear what you're saying, talk to me

The whole world is quiet, the sun is asleep
It's just me and you, this fire and this need
