Pardon me darling, if I alarmed ya
I don't mean to bother you I just wanna
Get you to pause and slow ya walk so
Maybe we can talk and I can try to charm ya

I'm just tryna find out who you are
I don't mean to come off like a telemarketer
I ain't no hood, no crook, no robber
I just want a part of you're heart, I could bother

Sometimes and maybe I can call you up sometimes
And maybe I can take you out sometimes
So let's exchange digits and later arrange visits
Either your place or mine, yeah

This a different type of commitment
I'm talking 'bout a true friendship
Someone I can depend on to be down no matter what
Let me know if you wit it 'coz girl

It'll be fly if you were my B U D D Y
Don't be shy, give it a try
I could be yours and you can be mine

Girl, I can't lie, it'll be fly
If you were my B U D D Y
Don't be shy, give it a try
I could be yours if you could be mine

Sorry if I come off disrespectful
Or my convo is a little bit too sexual
But damn it's incredible, be more flexible
'Coz the context of this text is special

But, but wait, let me explain it
A buddy is an equal beneficial arrangement
A buddy is a buddy that don't be complaining
When his or her buddy ain't the buddy they came wit

Sometimes and maybe I can call you up sometimes
And maybe I can take you out sometimes
So let's exchange digits and later arrange visits

Either your place or mine, yeah

It's a different type of commitment
I'm talking 'bout a true friendship
Someone I can depend on to be down no matter what
Let me know if you wit it 'coz girl

It'll be fly if you were my B U D D Y
Don't be shy, give it a try
I could be yours and you can be mine

Girl, I can't lie, it'll be fly
If you were my B U D D Y
Don't be shy, give it a try
I could be yours if you could be mine

Baby, what I'm really tryna say is that
The definition of a real buddy is that
She's that one down to have fun
And ride shotgun through the city with me

Together, there's no limit to what we can do
And once we in it, girl, it's all about me and you
So baby, what you say? Don't pass this by
And decide 'coz girl

It'll be fly if you were my B U D D Y
Don't be shy, give it a try
I could be yours and you could be mine

Girl, I can't lie, it'll be fly
If you were my B U D D Y
Don't be shy, give it a try
I could be yours if you could be mine

'Coz girl, it'll be fly if you were my B U D D Y
Don't be shy, give it a try
I could be yours and you could be mine

Girl, I can't lie, it'll be fly
If you were my B U D D Y
Don't be shy, give it a try
I could be yours if you could be mine
