Ya, that's cool
I understand what your saying
But I just got out of the situation
I'm not really trying to get into
Anything serious right now
But we could chill, na mean
Well, how 'bout this?

Let's pretend for one night
I'm the man in your life
And we do the things that lovers do
All the lovin' you lack
I'll give it to you just right
'Cause nothing less then special
When comes to you

See what we have is an understanding
That works so well for how we are
'Cause neither of us
Has a heart to fall in love all over again

Even though I'm not your man
And I know your not my girl
But let's just act like it's that way tonight
And I know you got your friends
And you know I got some too
But let's just act like your my lady tonight

Now what I like about you
Is that your always so cool
And comfortable
Whenever I'm around

You're someone I can talk to
No matter what I'm going through
I'm calling you 'cause
I know you'll always be down

See what we had is so incredible
That well never find it anyone else
This thing that we share is so unbelievable
That I want you all to myself

Even though I'm not your man
And I know your not my girl
But let's just act like it's that way tonight
And I know you got your friends
And you know I got some too
But let's just act like your my lady tonight

Oh, I know that we both have our separate lives
And we both keep ties on each other
So you can have me, So that I can hold ya
Until the morning comes
And we can go back to the way things was

Even though I'm not your man
And I know your not my girl
But let's just act like it's that way tonight
And I know you got your friends
And you know I got some too
But let's just act like your my lady tonight

Even though I'm not your man
And I know your not my girl
But let's just act like it's that way tonight
And I know you got your friends
And you know I got some too
But let's just act like your my lady tonight

And I know you got your friends
And you know I got some too
But let's just act like your my lady tonight
Tonight, tonight
Ohh da da doo do waa waa yah

I like it, I like it
I love it, I love it
Feels good to me
It feels good to me
So, so good to me
So, so good to me

I like it, I like it
I love it, I love it
Feels good to me
Feels good to me
So good to me
So, so good to me

I like it, I like it
I love it, I love it
So, so good to me

So, so good to me
