You think I'm so full of it, full of it
I think I'm just fed up, baby
You think I can be so arrogant, arrogant
But I'm just tryna keep my head up, baby
You think I procrastinate baby
But I think I'm takin' my time
You think you need to leave but,
I think I disagree
But if you believe
You'll do best without me
I'll let it go girl
It's over
But before we say goodbye
Let's give it a try
If you leave
Then baby I'll leave
I'll let it go girl
It's over
But I have no doubt
We can work this out, yeah
Yeah,
I think you're so full of it, full of it
You just don't know when to let up, baby
I think you're so arrogant, arrogant
That you think you're so much better, baby
Then I think it ain't healthy for me to judge you by flaws
And that's why I
Know I could criticise
But I put that aside
To focus on you and I
But if you believe
You'll do best without me
I'll let it go boy
It's over
But before we say goodbye
Let's give it a try
If you leave
Then baby I'll leave
I'll let it go boy
It's over
But I have no doubt
We can work this out, yeah

Now if you wanna go
Baby, then I'll let you go
And even though I'm tryna hold on
I can't if you don't

Ooh
Now if you leave me
You're gonna miss me
And I'm not sayin' that I'll be here waitin'

Since we here right now
Instead of just walking out
Let's work to reach the point i know that we could be
But if you believe
You'll do best without me
Ill let you go
Its over
But before we say goodbye
Let's give it a try
If you leave
Then baby I'll leave
I'll Let it go
It's over
But I have no doubt
We can work this out

If you believe
You'll do best without me
Ill let it go girl, its over
Before we say goodbye
Let's give it a try
If you leave, then baby I'll leave..
