verse 1:

if the winter springs
or the summer falls
it wont have no effect on this love at all
if in another time
i was you and you was i
you know i'd still recognize you all the same
this kind of love don't ever change
cuz

chorus:

i'll be loving you
till the sun starts shinning blue
and the seas talk back to you
girl ill still be there be there
loving you until all of time is standing still
nothing's ever been this real to me
as this love,this love,this love
loving you until
(two thousand and seventy three)we'll still be together
in
(two thousand and eighty four)
in love more than ever in
(two thousand and ninety three)
this love just won't ever end
(two thousand)until (two thousand) until (two
thousand)until two thousand and forever

verse 2:

now if dreams could dream (dream)
just like people do (do)
i believe they'd dreamed the dream of the love
between me and you
and even tho will fight
we may not get along sometimes
its cool
cuz i know that if i fight with you, then cry with you, i
can make it up all night with you
soo oh ooh eh eh eh ey eh eh

chorus (2nd)

i'll be loving you
till the sun starts shinning blue (oh no)

and the seas talk back to you (you)
girl ill still be there be there
loving you until all of time is standing still
nothing's ever been this real to me
as this love, this love, this love
loving you until
(two thousand and seventy three) we'll still be together
in
(two thousand and eighty four)
in love more than ever in
(two thousand and ninety three)
this love just won't ever end
(two thousand) until (two thousand) until (two
thousand) until two thousand and forever
bridge:
if love ever fades away
you still find some to make
cuz time don't apply to you and i
cuz this love goes
as far as eternity
way beyond infinity
and long after we're dead and gone
will still be holding on
cuz

chorus (3rd)
i'll be loving you
till the sun starts shining blue
and the seas talk back to you
girl ill still be there be there
loving you until all of time is standing still
nothing's ever been this real to me
as this love, this love, this love
loving you until
(two thousand and seventy three) we'll still be together
in
(two thousand and eighty four)
in love more than ever in
(two thousand and ninety three)
this love just won't ever end
(two thousand) until (two thousand) until (two
thousand) until two thousand and forever
yeah
