"whereareyougoing"

Oh baby, can I change my mind, long ago you left me  
You think I would have listened, when you said to me  
To get my life together or you would leave  
But now that you're gone the story begins  
It's the ending of the end of and endless and  
Looking back I was bringing you down  
But now I'm changing my life  
You said when I make a change I could stop by  
Now I'm back and I can't live without you

Chorus

If you can't have the one you love  
Then where are you going in your life  
If you can't have the person in your life  
Then where are you headed in your life  
I know you still remember all of the times  
I have you waiting by the telephone  
And never came on the line  
But now I got myself together  
And finally understand  
This time I'll take your heart in the palm of my hand  
Looking back I was bringing you down'  
But now I'm changing my song  
You said when I make a change I could come on back  
home  
Now I'm back and I can't live without you no

Chorus

Girl it's time I tell you something and it might sound  
strange  
Like the weather everyday it's true that people change  
You gotta help me run this race before I pass us by  
I think it's time we try this love again just more time
