Now what we came here to do  
It means more to me than just a night  
That we'll share so make sure that you're prepared  
baby  
And know that love is not just something to do  
It's the moment that transcends our physical  
Into a more spiritual level of understanding  
And who knows somehow,  
This night just might lead us into a place  
Where our emotions can grow if we let em go  
Cuz who knows what may happen  
If we act more on our attractions  
And lose ourselves inside a world  
Made for us and no one else  
Hey girl just let me love you  
Ain't no need to be afraid  
Cuz i'll be as gental as i takes  
To provide you with the right  
Amount of pleasure and pain  
And i'll make sure that you feel  
Alright even if it takes me all night  
Cuz the joy is all mine  
When i know you're satisfied  
So let's give it all we got  
And who knows somehow  
This night just might lead us  
Into a place where our emotions  
Can grow if we let em go  
Cuz who knows what may happen  
If we act more on our attractions  
And lose ourselves inside a world  
Made for us and no one else  
Hey girl just let me love you  
Listen now i can see it in your eyes yeah  
That you want to baby just as bad as i do  
And girl i wanna give it to you  
And if you can just set aside your fears  
And just try to deal with  
What's goin on with us right now  
Cuz who knows somehow  
This night just might lead us into a place  
Where our emotions can grow if we let em go

Cuz who knows what may happen  
If we act more on our attractions  
And lose ourselves inside a world  
Made for us and no one else  
Hey girl just let me love you
