Girl lately I been thinking bout
The times that I shared with you
And there's something that i figured out,
Darling you must have been heaven sent
There isn't nothing better than
Things that you say and do
No, so why do I feel I'm being played for a fool
Cause whenever you call on me I come through for you
but
When i need you, you can't seem to do the same for
me
And I love that you pay your phone no mind
When we're alone but sometimes
When i try to reach you
I wonder if your just busy, or you don't konw that it's me
Cause you love me don't ya
I know you (I know you do)
Cause of all the wonderful things that you put me
through (me through)
I know you love me baby
Cause I love you to
So tell me why is it I'm having doubts about you
Now everday when you're around
You always cater to my needs like
You seemed to be concerned
If I'm eating or sleeping properly (yeah)
Its has to be the greatest thing to know
The one you love loves you back
Or is the love you have for me really true or is it just an
act
Cuase when you're hard at work and when I'm hard at
work
And we can't talk
We just page eachother with our sexual wishes
But when we're spending quality time and your pager
rings
I wonder
Who could be when you answer laughing at your reply
Or is it that I'm just being suspicious
Cause you love me don't ya
I know you (I know you do)
Cause of all the wonderful things that you put me

through (me through)
I know you love me baby
Cause I love you to
So tell me why is it I'm having doubts about you
Now maybe I'm just a hopeless romantic
For these matters of the heart and so
I hope we can grow to raise a family
Nourished in trust and happiness and love
Cause you love me don't ya
I know you (I know you do)
Cause of all the wonderful things that you put me
through (me through)
I know you love me baby
Cause I love you to
So tell me why is it I'm having doubts about you
Cause you love me don't ya
I know you (I know you do)
Cause of all the wonderful things that you put me
through (me through)
I know you love me baby
Cause I love you to
So tell me why is it I'm having doubts about you
