"Break"

Visit "[Break](#)" on MotoLyrics.com

Don't take this the wrong way,
I know you could be sensitive that way
but I just have to say
That i think we should take a break

Even though, I still care about you,
I think you ought to know
What's in my head, when I go to bed
and its gonna be said and done.

We've been through a lot,
and we gave it our best shot.
I'm not saying I don't care bout you
I just need some time to think this through.

thought we'd be together for forever
and i don't wanna say we'll never, never say never

Don't take this the wrong way,
I know you could be sensitive
but I just have to say
That i think we should take a break

Don't take this the wrong way,
I know you could be sensitive
but I just have to say
That i think we should take a break

Right now I feel this way and
I don't want to hurt you in the end.
I'm not saying this with attitude,
I just don't wanna be more than just a friend.

this is a surprise to you,
and it's just the way its gonna be.
Who knows? Maybe later on in life
we'll re-kindle what we used to be.

thought we'd be together for forever
and i don't wanna say we'll never never say never

Don't take this the wrong way,

I know you could be sensitive that way
but I just have to say
That i think we should take a break

Don't take this the wrong way,
I know you could be sensitive
but I just have to say
That i think we should take a break

It's just that I've lost the spark for you,
and it's difficult to move on feeling this.
I'm telling you right now,
so I won't lead you on,
Having yourself wishing you had ending this.
It's difficult, but so simple.

thought we'd be together for forever
and i don't wanna say we'll never never say never

Don't take this the wrong way,
I know you could be sensitive that way
but I just have to say
That i think we should take a break

Don't take this the wrong way,
I know you could be sensitive
but I just have to say
That i think we should take a break

Don't take this the wrong way,
I know you could be sensitive
but I just have to say
That i think we should take a break

Don't take this the wrong way,
I know you could be sensitive
but I just have to say
That i think we should take a break

thought we'd be together for forever
and i don't wanna say we'll never never say never
