It seems like you make the sunrise
Just being around you makes everything alright
You make me feel like i am on cloud 9
If you keep it up, I just might explode

It makes me happy when I see your smile
Think of your number when I wanna dial
The time we spend together, definitely worthwhile
If you keep it up, I just might explode

I go crazy when I see your face,
the way i'm feeling sends me into outerspace
sometimes I feel like I don't know what to say
don't take me literally i'm not a nutcase

because of you I know i'm on the right road
the way we connect, I know I got the secret code
don't mind me, this is another episode
of me telling you, you make me explode

Explode
Explode
Explode
Explode
Explode

Explode
Explode

I couldn't think what life would be without you
If you weren't here I wouldn't know what to do
I know you feeling the same way about me too
If you keep it up, I just might explode

The first thing I think about when I wake up
I'm running out of words, don't know what to say
With you I feel like I could rule the world
If you keep it up, I just might explode

I go crazy when I see your face,
the way i'm feeling sends me into outerspace
sometimes I feel like I don't know what to say

don't take me literally i'm not a nutcase

because of you I know i'm on the right road
the way we connect, I know I got the secret code
don't mind me, this is another episode
of me telling you, you make me explode

Explode
Explode
Explode
Explode
Explode
Explode
Explode
Explode

huh you make me explode,
you make me explode,
you make me explode

I go crazy when I see your face,
the way i'm feeling sends me into outerspace
sometimes I feel like I don't know what to say
don't take me literally i'm not a nutcase

because of you I know i'm on the right road
the way we connect, I know I got the secret code
don't mind me, this is another episode
of me telling you, you make me explode
