There's a feeling that we kept hidden deep cuz they said  
What we want, what we had isn't real, it won't last  
So we had to move on or we'd be further gone  
Beyond reach, beyond stars, so come back, let's  
restart  
I will stand by your side, holding on for all time  
Will be hard, will be tough, but on us we won't give up  
Now's the chance to show them all what we feel is so  
strong  
Here's my hand hold on tight, you and me, endless  
night

[Hook]

Don't be afraid it's alright  
I won't leave your side

[Chorus]

If you Look Outside the Window  
There's a world without the shadows  
It's all waiting for you!  
If you look outside the window  
My hand's waiting for your hold  
I am waiting for you!  
If you look outside the window  
There's a magic we both could control  
It's just waiting for you!  
If you look outside the window  
Your heart could be mine to show the world  
I'm just waiting for you!

[Verse 2]

There's a feeling you give me like the sand on my  
feet  
Comforting, tingling, Both may move but won't leave  
And their words froze you there that's why I know you  
don't dare  
But baby our love is like a pure white dove  
Taking off in a flight showing all this is right  
So I'm down on my knees, won't you baby please  
Look outside I'm right here, I will calm all your fears  
Don't be scared it's alright, take my hand it's time

to fly

[Hook]

Don't be afraid it's alright  
I'm staying right here  
Forever by your side

[Repeat Chorus]

[Bridge]

One step at a time come on over here  
They're gone and our path is now clear  
I'll hold you and kiss your pain away  
Destiny calls let your fears fade  
Let's fly and leave behind the past  
I'm with you and never looking back

[Repeat chorus]

I'm just waiting for you...  
I'm just waiting for you...  
I'm just waiting for you...
