Ey, ey, ey

Out of all the other girls I've ever had  
You showed me that you could be the one I'm missing  
People talking saying that you and me wouldn't last  
But thankfully our hearts don't have to listen

I know everything that's on your mind  
These type of things don't happen all the time  
Baby we're meant to be together  
I've been loving in the dark but now with you I see the  
light

[Chorus]

I'll will you on fire girl, like the sun  
I can feel the temperature is rising getting higher  
I'll will you on fire girl, like the sun  
I can feel the temperature is rising getting higher

Ey, ey, ey

Out of all the girls I've dated in the past  
They ain't gave me nothing nowhere like this special  
feeling  
There's no other love as strong as what we have  
Life with you is like a gift that keeps on giving

You know everything that's on my mind  
These type of things don't happen all the time  
Girl we were meant to be forever  
See I've been loving in the dark but now with you I see  
the light

[Chorus]

With just one touch she burns me up  
This love is just like shelter from the rain

In darkest night, she is the light  
With nothing left, she made it right  
That shining jar in darkest pain

I am her candle and she's my flame

[Chorus]

Doo, doo, doo, doo...
