Hey, girl, hey
You know I got you right, yeah
I just wish I could do a little more for you
I know but it's cool

If I had an extra dollar I'd buy you the world
But with the change I'm makin' know I just can't give it
to you girl
And when I get a minute I'll spend the life with you
But all the time I spend grindin' just ain't enough for
me and you
Now I know that

Been around, holdin' me down for a while now
And you never ever complain about nothin'
'Cause you know I would take you out and make you
smile

Some how some way even though I know it's not much
today
But I know we always got tomorrow
If I gotta beg and borrow I'ma make you happy baby

I promise, soon as I get my money right I'ma take good
care of you
Just like I'm suppose to, baby you believe me don't you?
I promise, soon as I get my money right I'ma take good
care of you
Just like I'm suppose to, baby you believe me don't you?
I promise

Now if I had the power I'd make your dreams come true
But when I barely sleep and hardly eat
At the end of the day I'm through, yeah

If I could tell the future I still wouldn't change a thing
Because I know no matter what I got
Girl it still won't be the same 'cause I know you

Been around, holdin' me down for a while now
And you never ever complain about nothin'
'Cause you know I would take you out and make you

smile

Some how some way even though I know it's not much
today
But I know we always got tomorrow
If I gotta beg and borrow I'ma make you happy baby

I promise, soon as I get my money right I'ma take good
care of you
Just like I'm suppose to, baby you believe me don't you?
I promise, soon as I get my money right I'ma take good
care of you
Just like I'm suppose to, baby you believe me don't you?
I promise

My datin' days are dead and gone, I already know that
you're the one
I'm doin' everythin' for us, I can't go nowhere else but
up
Together we could reach the sky as long as I got you by
my side
Everythin' is gonna be alright, just watch me baby

I promise, soon as I get my money right I'ma take good
care of you
Just like I'm suppose to, baby you believe me don't you?
I promise, soon as I get my money right I'ma take good
care of you
Just like I'm suppose to, baby you believe me don't you?

I promise, soon as I get my money right I'ma take good
care of you
Just like I'm suppose to, baby you believe me don't you?
I promise, soon as I get my money right I'ma take good
care of you
Just like I'm suppose to, baby you believe me don't you?
I promise
