Join the waves in the ocean
Or let my soul fade away in the dark
'Cause I've gone on astray
And all my flowers turned to dandelions
Now I'm falling on my knees
And tumblin' down
I'm tumblin'
I'm tumblin'
I'm tumblin'
I'm tumblin' down, oh down, oh down, oh down
I'm tumblin' down
I'm tumblin'
I'm tumblin'
I'm tumblin'
I'm tumblin' down, oh down, oh down, oh down

It's like my early morning sunset
And my night's rise
Day by day, night by night
I'm full of lies, I'm full of cries
Ain't dead and gone, but I'm paralyzed
From the waist up hard just to take a breath
And from the waist down hardly can take a step
Thrown to the left, far from the best
Questions till I fall
Should I

Join the waves in the ocean
Or let my soul fade away in the dark
'Cause I've gone on astray
And all my flowers turned to dandelions
Now I'm falling on my knees
And tumblin' down
I'm tumblin'
I'm tumblin'
I'm tumblin'
I'm tumblin' down, oh down, oh down, oh down
I'm tumblin' down
I'm tumblin'
I'm tumblin'
I'm tumblin'
I'm tumblin' down, oh down, oh down, oh down

It's like my early morning sun's gone
And my night's stay
Day by night, night by day
It's hello predators, I'm feeling like a prey
I need security to box me up in a cage
Let it fade away, I just can't get shot
And to keep the pain away, I just take a shot
Falling from the top, havin' sudden thought
Questions till I fall, I

Join the waves in the ocean
Or let my soul fade away in the dark
'Cause I've gone on astray
And all my flowers turned to dandelions
Now I'm falling on my knees
And tumblin' down
I'm tumblin'
I'm tumblin'
I'm tumblin'
I'm tumblin' down, oh down, oh down, oh down
I'm tumblin' down
I'm tumblin'
I'm tumblin'
I'm tumblin'
I'm tumblin' down, oh down, oh down, oh down

Tumblin' down
