Loud, loud, loud, loud

I ain't never seen you before,  
Plus I'm in the new things, baby  
We don't need to talk anymore  
Won't you let me drive you crazy?  
Kiss you from your head to your toes  
Baby we are ready, let's go

I'm a get the tree, you gonna get the switcher  
We gonna get some drinks, then I'm a lick her  
Tell me what you need and I got it, got it,  
Like uh, child, this is gonna be wild

We're about to turn on  
Then we're gonna get down  
And when we're making love  
I wanna hear you screaming loud, loud  
Let the neighbors complain  
Girl, I need you now  
Don't care what they say  
I wanna hear you screaming loud, loud, loud

Loud, loud, loud, loud

What's the point in doing it all  
If we ain't gonna do it right?  
Baby, even if we fall  
We're gonna land on cloud nine  
'Cause we're gonna be so high  
We won't even need a reason why

I'm a get the tree, you gonna get the switcher  
We gonna get some drinks, then I'm a lick her  
Tell me what you need and I got it, got it,  
Like uh, child, this is gonna be wild

We're about to turn on  
Then we're gonna get down  
And when we're making love  
I wanna hear you getting loud, loud  
Let the neighbors complain

Girl, I need you now  
Don't care what they say  
I wanna hear you screaming loud, loud, loud

Loud, loud, loud, loud

You don't get it like you should, babe  
So I want to make you mine, you'll be good, baby  
You get that attention, you miss it  
You know you're gonna lose it when I kiss it  
Let's make movies, baby, you can play the lead,  
I'm a play the doctor 'cause I get you what you need  
This can be a thriller, girl, I wanna hear you scream  
Baby, I can get it and a tease

We're about to turn on  
And then we're gonna get down  
So when we're making love  
I wanna hear you get loud, loud  
Let the neighbors complain  
Girl, I need you now  
Don't care what they say,  
I wanna hear you get loud, loud
