Get it On – Written by Kenny Mehler

Some people say we had a good run
Never stopping to say good job, Well done.
It's always a quick little hello and than a goodbye
For what it's worth I keep asking...how and why

People come and people go
You can take it hard, lord knows you can take it slow
Think about the choices that seem to pass us by
Jump in and get your feet wet...cause we're getting
down and dirty tonight!

Get it On... Get it On... Get it On... Now
Get it On... Get it On... Get it On... Now
Get it On... Get it On... Get it On... Yeah
Lord knows you got to...

I'm holding on to what we got now
There comes a time when it's easier said than done

Get it On... Get it On... Get it On... Now
Get it On... Get it On... Get it On... Now
Get it On... Get it On... Get it On... Yeah
Lord knows we got to...

Easy come and easy go
You can take it hard lord knows you can take it slow
Think about the choices that seem to pass us by
Jump in and get your feet wet...cause we're getting
down and dirty tonight!

Get it On... Get it On... Get it On... Now
Get it On... Get it On... Get it On... Now
Get it On... Get it On... Get it On... Yeah
Lord knows we got to...
