[Kid Rad]

It's you, the one that they all pursue
See them heads turn round when you're walking
through
but they'll get turned down if they talk to you
cause you're fly girl and you want the sorta dude
thats got dough in the bank to afford to do
those things that you want to do
now let me be true, im soon to be him
but I don't want the fame or the money I want you
and there's about a hundred other guys it's like that
but they could dissapear from your eyes just like that
and even if I walk past ima be right back
cause you're the one I want, I ain't gunna deny that
yes i'm a sly chap, and i might leave for days
but if I leave we'll be the same
cause i'll be right back with more dough and a bigger
chain
I'll make sure you don't feel the rain cause I know it's
you

[Josh Smithyman]

It's you that I came for, you I came for
so why don't you meet me on the dancefloor
It's you that I came for, you I came for
So why don't you give me more, it's you

[Kid Rad]

It's you, the one that they all admire
only one guy could afford your attire
and I'm not tryna say money's your desire
but just watch my bank balance soaring higher
the champagne nights out, we can all aspire
but i'm the one that's gunna make it real
and get a mill in the bank way before we all retire
you'll be there when I sign the deal
and when I climb the hill that's looking more like a
mountain
you'll be at the top with the money we're counting
the brand new porche parked next to the fountain
on the front of the yard, no council housing
and you might doubt it, cause I might leave for days
but if I leave we'll be the same
cause i'll be right back with more dough and a bigger

chain

I'll make sure you don't feel the rain cause I know it's
you

[Josh Smithyman]

It's you that I came for, you I came for
so why don't you meet me on the dancefloor

It's you that I came for, you I came for
So why don't you give me more, it's you

[Kid Rad]

It's you, and that's what I've come to say
cause if I get enough cash we can run away
it doesn't really matter whatever I've done for pay
aslong as we can see the sun in spain
and kick back in the sun for days, cause I know it's you
we can act like it's not but I know its true
them other girls are okay, but they won't do
so come and see me on the dancefloor now cause I
know it's you

[Josh Smithyman]

It's you that I came for, you I came for
so why don't you meet me on the dancefloor
It's you that I came for, you I came for
So why don't you give me more, it's you
