Glass, it's not what you want, need, crave  
but, I'll do it  
you plead, bleed, beg me - like you're tied  
deep s our degrading, yearn!!!

Life on a whole is a tragedy  
but as you look back on it  
it evolves as a comedy,

depending, on the strategy  
your own has taken up now

(it's a sad individual who wants that)

(but i like it, like you for it)

lie, low and any way you want  
you've sure got it why not flaunt it?

I think it's time, you smell the glass  
you love it, but who the fuck cares

wake up and check the glass  
you know what to do. Insert!!!

now's time, you are so sad  
degenerate. Insert!!!

you're sag, you're a motherfucker  
we've only 'life' and live it.

now the times past  
i think you should wake up!!

the glass, smell the glass.

(who says your life is at all  
you need time to realize)
