Drinkin' in the pub just the other night, this girl comes
up to me and
says "what would ya like?" I said another beer another
pitcher or two.
Drank a few more rounds and the night was through!
This is your brain,
this is your brain on ska! This is your brain, this is your
brain on
ska!
Dancin' on the floor just hoppin' and skankin'...D.J. on
the mic won't
stop crankin'. Give me any music that'll move my feet,
give me any
music with a two-tone beat! This is your brain, this is
your brain on
ska. This is your brain, this is your brain on ska!
Pork pie hats, and Fred Parry shirts, drinkin' cheap beer
and chasin'
skirts! But what it's really all about is plain to see:
simply havin'
fun and unity! This is your brain, this is your brain on
ska! This is
your brain, this is your brain on ska!
