My life has been, just like a sin, I must be mad.
My heart has grown, become so small, I need some
help.

But now you wont help me, just wanna go away, you
don't care for me inside. And Now You're Far Away, You
Aint Gonna Stay, I Can Show You That I've Changed.

My life aint fine, but I can try, please warm my side
(Please Show Me How)
My eyes can't see, but you can lead, please warm my
side (Please Show Me How)

My death was near, I had no fear, just did'nt care.
100 words, not cool - Absurd, God I feel bad

Hope you gonna stay, help me trough this day , hey I
need you here right now.
I was far away, but I'm here to stay, I can show you that
I've changed

My life aint fine, but I can try, please warm my side
(Please Show Me How)
My eyes can't see, but you can lead, please warm my
side (Please Show Me How)

You left me here, I don't blame you. My Eyes were shut,
you helped me through.
My Death was nere, but you we're here, you helped me
see another day.
I Want to live without a doubt - So here me out, please
god right now.
Here's my confession brought to you..So please just
stay and help me through
