"No One But Myself"

I'm wasting my time
Telling you why I've ben so frustrated
You, you always knew I was the end
Now, now I must say
It's in the way I've been tempted baby
You, you always knew I would bend
I can't deny the reason why
You got me cryin' baby
I'm fooling no one but myself
Now that you're gone
So I'm alone
I found the answer baby
I'll keep my anguish to myself
I'm angled up, woven in knots
That you're spinning baby
You, you spun the web where I await
When we are alone
I always know that my mind is made up
Biding my time
Risking my fate
