

## Mustard Plug "The Park"

Visit "[The Park](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Last call  
One second left  
A minute maybe more  
My own consistency has kept me straight in line  
Too many complications ive forgotten what it's for  
I know ive often come here i just can't recall the time  
when  
You told me to go that way  
Take me to the park  
When i get paid'you told me that the right way  
Was always one more long step further from your last  
'cause i can't find my way around this town  
Don't leave me after dark  
I can't remember last year  
Even though ive been here  
Another fork stuck in the road  
Another turn  
Even though i know ive been around  
I read the rules but don't remember all the codes  
I took my chances now there is no helping me  
I hope you leave a message somewhere  
That I'll surely see  
You told me to go that way  
Take me to the park  
When i get paid'you told me that the right way  
Was always one more long step further from your last  
'cause i can't find my way around this town  
Even though ive been here  
Don't leave me after dark  
Even though i know ive been around  
I can't remember last year  
I can't remember why i tried  
I only hope to say goodbye
