All done I dont have the answers
I dont have the friendships
That I thought I would
Here are all my secret stories
All my head unworryies(?) but it wont take long

Well you say will never be the first time
Almost seems like made up always on your side
Lately lv been drawing pictures
lv been watching you close underneath my eyes

For you something familiar twenty second hour
lv been losing mine
For you something familiar twenty second hour
lv been losing time
Planted(?) turns out im surrounded
Why didn't you mention in a bout like this
Lately I'm still drawing pictures
I'm still watching you close underneath my eyes

For you something familiar twenty second hour
lv been losing mine
For you something familiar twenty second hour
lv been losing time

All done I dont have the answers
I dont have the friendships
That I thought I would
Here are all my secret stories
All my head unworries(?) but it wont take long

For you something familiar twenty second hour
lv been losing mine
For you something familiar twenty second hour
lv been losing time
For you
