damn it's dark and I feel severed
you and me used to be together
it's insane it couldn't be much better
we know it's gone and its gone forever

but I know that we did right
when we ended this on time
here I sit alone in the dark
damn! you breaker of my heart

...yeah!

hey!...

damn it's dark this is not real
tho it's good I got a really bad feeling
you like the sun I like the shadow
you are the light I am dark metal

but I know that we did right
when we ended this on time
here I sit alone in the dark
damn! you breaker of my heart

the quiet night sky
reveals a shooting star
come help me with my blackened mind
and I bleed in the heart

damn it's dark

but I know that we did right
when we ended this on time
here I sit alone in the dark
damn! you breaker of my heart

damn it's dark and I feel severed
you and me used to be together
but it's insane it couldn't be much better
we know it's gone and its gone forever
