I know this guy I haven't told about before
He's always pissed
You can find him on the floor
He's not alright but wants to be respected

He said
This is my life and I am free of waste my time
Up to now the alcohol was the best I found

Daybreaker, you'll make it
If you try

And his girlfriend seem to stand the misery
She should be moving on if you are asking me
It's quite alright, but what he needs

Daybreaker, don't break her
Daybreaker, heartbreaker
Daybreaker, don't break her
If you can

This is the final stand before I break away
I do believe it's time for me to go insane
I feel alright, I want to be
