"I Hunt Alone"

When you see me
You've been trying to hide
I could eat you
And it feels just alright
Any cold winter night
You will all die

When my prey is wounded
That's my only holy moment
You might move in herds
I Hunt Alone

When I see you
I don't hate you, I cry
When you've seen me
You've been all paralyzed
I'm the beast that you fear
In the shadows of night

When my prey is wounded
That's my only holy moment
You might move in herds
I Hunt Alone

Any cold winter night
You will all die
I'm the beast that you fear
In the shadows of night
When I see you
All I need is to smile

When my prey is wounded
That's my only holy moment
You might move in herds
I Hunt Alone
