I'm bringin' me home to you
It's all that I have to give
My life, my love, my everything
It's you I choose to be with

Had a wonderful time in the city
I smile when I recall
The space, the songs, the company
I really had a ball
Then a funny set of circumstances
Sends me out on the road alone
With the Moon lookin' over my shoulder
A' fightin' my way back home

I'm bringin' me home to you
It's all that I have to give
My life, my love my everything
It's you I choose to be with

la la la la la la la la la la la la la la la la
la la la la la la la la la la la la la la

And when I lay down beside you
And all the love that you've shown
I want to live my life with you
It's all the dreams that I've known

And I'm bringin' me home to you
It's all that I have to give
My life, my love, my everything
It's you I choose to be with
It's you I choose to be with
It's you I want to live with

la la la la la la la la la la la la la la la la
la la la la la la la la la la la la la la
